Best Practice No 2

Internship and training for Vocational Programs

Objectives:

- To impart experiential learning. .
- To provide knowledge of industry working environment.
- To inspire entrepreneurship.
- To provide hands on experience of professional ethics.
- To understand the safety measures in work environment.

The Context:

The college has good infrastructure for automobile vocational programs. Practicals in the Cut-section workshop, Assembling and Dismantling workshop, Vehicle Testing lab and 2 - 3 Wheeler workshops provide good vocational training to students. Yet exposure to actual field work was necessary. It was evident that mere field visits to automobile dealer workshops would not suffice for the purpose of attaining the Learning Objectives.. the importance of experiential learning was bound to provide hands on live demonstration of troubleshooting for vehicular problems.

The Practice:

Students are divided into batches for sending to different automobile workshops. Request letters are sent to auto workshops with students' lists. The students work under a supervisor or workshop manager. Initially they are made to observe the registration process, workflow, safety rules and regulations etc. in the workshop. After completion of orientation they are divided into groups and assigned to different sections in the workshop. Students work under all sections in rotation. They get good hands on experience in faultfinding in vehicles.

Central Farm Machinery Training and Testing Institute (CFMTTI), Budhni, Madhya Pradesh is a Central government institution which has an annual training calendar. Students of B.Voc. second and third year are sent for 'Repair and Overhauling of Stationary Engine and Tractors Repair' and 'Maintenance of Auto Electrical Equipment and Battery Reconditioning'. The institute has also arranged for need based training for our students apart from their calendar schedule. Students have immensely benefited from these trainings.

Evidence of Success:

Criteria: **7-Institutional Values and Best Practices**

Students are successfully employed and self-employed. They have been promoted to higher positions in auto dealer workshops.

Problems Encountered and Resources Required:

Found Lack of awareness in automobile industry about B.Voc. Programs Industries and Companies do not show their interest for campus placement. .
